I DETAILED ACTION

This is the seventh office action for U.S. Application 10/620,010 for a Toolless Locking Mount filed by Eric Thompson on July 15, 2003. Claims 1-8, 12, and 14-18 are pending.

Allowable Subject Matter

Claims 1-8, 12, and 14-18 are allowed. The following is an examiner's statement of reasons for allowance: The prior art does not disclose a universal mounting mechanism with a base that has an upper surface and a bottom surface and a sideways face for engaging two non-parallel outside surfaces, the surfaces extending to the bottom surface, a top pivotally mounted on the base that lies on a plane orthogonal to the surfaces, the top locking into either a closed position over the face, or an open position clear of the face, and at least one fastener hole for receiving a fastener by which the base can be attached to an other surface with the bottom surface engaged with an upper surface of the other surface, whereby the object can be easily and quickly installed and removed from the other surface.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
